

Immunization Requirements

The Coweta County Health Department and the state of Georgia require an immunization form to be on file for each child enrolled at NPPK.

1. **Within 30 days of enrollment**, you must send a copy of **Immunization Form #3231** to the school*
2. If you have already sent one in during a previous year the school office will notify you within 30 days of the form expiring so you can get the needed immunizations for your child and an updated form.
3. A photo copy of the signed certificate is acceptable but **may not be altered** in any way (no white out).

Please be advised that **Georgia Law requires** the school must have a current form on file or the child cannot attend school until an updated form is provided.

- Exemptions – If your child has a medical or religious reason for not receiving immunizations you must provide the school with a letter that is:

Medical – signed by the doctor and notarized - code O.C.G.A. 20-2-771(d)

Religious – signed by parent and notarized – code O.C.G.A. 20-2-771(e)
